ACA - At Montana Health CO-OP, we believe it is imperative that everyone understands how the Affordable Care Act is unfolding. We will explain how federal premium subsidies work, what the insurance exchange is and how mandated health insurance reforms are changing the industry. This issue is especially crucial to the 200,000 uninsured Montanans, and to the 97% of Montana businesses with fewer than 50 full-time employees who routinely struggle to offer their workers affordable and comprehensive health insurance.
